

Amazon Web Services Major Project:

Create a Chat bot using Amazon Lex Tool.

Intent of the chat bot: Book Hotel

- 1) All the information must be conveyed to the user after booking room and must be informed to the user the price of the hotel room and day of stay.
- 2) Using this chat bot user must aware of types of Available rooms (Classic, Duplex etc) - Choose your own Category as well.
- 3) All events must be in flow for fulfilment of the intent.
